**MEETING BY:**

1. Brigadier Ayuen Alier Jongroor- Ag. Chairperson
2. John Bol Dhal -- member
3. Ngong Philip Thon -- Member
4. Jok Ajak Alier - Member
5. Kur Dhal - Member
6. Ayom Marial Nyok - Member
7. Dr. Kur Thon Mathuang
8. Dr. Simon Kue Akec - ~~Ag.~~ secretary

And many more

**Mission of the meeting : theme: He who succeeds is never in the wrong**

**Objectives**

- (a) To attain self reliance
- (b) Provision of Dinka Bor services to take control over the Mundari land.
- (c) To develop Dinka natural resources and annex the pastures land and rivalry for territory with Juba capital of southern Sudan and have political influence in Central Equatoria State.
- (d) To create Dinka Bor a class society which is superior to any tribe at national level?
- (e) To attain national recognition and defend plan to annex basically part of Equatoria.

## Vision:

The social, political, Economic conditions and the cultural, moral value in the Sudan and Dinka- Bor.

## Questions

1. What is the difference between Dinka Bor and the SPLM?
2. What is good in Equatoria region to annex part of it?
3. Why do always the current leadership of SPLM quite of inter-tribal conflicts with out involvement or intervention, and why do SPLA soldiers always support Dinka in boundary issue?
4. Why do Dinka become a superior kingdom in south Sudan?

## Answers

Dinka Bor is a tribe which fought in upper Nile region and created the land of Bor to be a superior kingdom in south Sudan and played a big role in the liberation struggle with many high commanders in the southern Sudan SPLA/Army.

They also dominated the ruling SPLM party this make the SPLM /A (Leadership) and Dinka Bor not difference, but instead they have some things in common.

### The good things in Equatoria Area:

- (a) The issue to dominate Equatoria politics so as to exploit what we demands. But the greatest problem (obstacles) is the Mundari tribe (community which has the same cultural values and traditions with the Dinka Bor . and in order to implement this aspiration, we must first deal with Mundari community and defeat them for further plans.

### Plans to deal/defeat Mundari and the equatorial region.

- (a) First defeat Wani (Buli) Nyambur Boughta who is a high educated person all over the Mundari people. His greater knowledge of history and politics proves him difficult. He knows much about colonial, the khedival and the condominium administrations jurisdiction and neighbor to Bor, He knows a lot about our socio-tribal condition.

(b) The second way of defeating the Mundari is to use the conscripted army to use force for them and always delay peace talks between the Dinka Bor and the Mundaris of high academic profile.

(c) Delay development in the Mundari land by using civilians for inter-tribal conflict in cattle raiding and wrestling, and make the land for grazing in a particular state.

(d) Make the unequal social class by denying them schools and betray them to be a backward people.

(e) Create political instability by carrying out bushes attacks and make the principles Equatoria land belong to Dinka Bor cattle for grazing, Attack and burn villages and force them out of places /villages to be IDPS.

(f) Lose of authority respect and create disorder by killing, chains statement, intimidation, harassment and make conflicts between regions.

(g) In complement and insufficiency in the Mundari County.

(h) Land fragmentation

(i) Exploitation of Mundari resources and make them illiterate.

(j) Increase rate of dependant's crimes by keeping Mundari very poor and become the last class all over the Sudan.

#### **Good things in Equatoria region.**

(a) Connect madding Bor to Juba as one state and dominate all affairs of the place, to create employment in the region and Bari speakers as weakest people and so exploit their land for cattle grazing.

#### **Wani (Bulli) Nyambur characters:**

(a) High qualified gifted politician

- (b) Has good command of the histories of colonial, khedival and condemnium administrations and jurisdiction riz boundaries (conventional, traditional and natural).
- (c) Has serious influence over the chiefs
- (d) United Mundari and open their eyes for nationalism
- (e) A committed dedicated man in the liberation and loyal struggle/revolutionary struggle
- (f) Always steady and un compromising with the Dinka Bor when raiding bush attacks , oppression begin, he must see that such things are stopped and avoided
- (g) Always associated with all categories. Riz, farmers, people, traders, elders' students to condemn any wrong done on the Mundari people.

#### **How to defeat wani (Bulli) Nyambur Boughta**

- (a) Accuse him of association with the NCP and so implicate him of having strong connection with the central government.
- (b) Defeating Wani Nyambur from getting national political position in the Sudan.
- (c) Calling him a betrayer of the Mundari people politics and so create confusion between him and the Mundari intellectuals particularly those working under Dinka Bor influence.

#### **How to defeat Mundari chiefs**

1. Intimidation of civilians by carrying bush attacks and destroying all camps inorder to delay developmental process in Mundari land
2. The Dinka political domination and soldiers oppression in Mundari
3. Politicians instability and creates Dinka efficient occupation and administration mark Mundari support Dinka administration
4. The Dinka bushes attacks criminals supported Bor government must turn to assaults on Mundari villages to frustrated the local people

5. The Dinka politician promotion functional conflicts supported by commissioner of Bor county to start moving with the flag (county flag)

**He who succeed is never in the wrong side**

This meant that all expansion of Bor territory to juba side with little community and commissioner of Bor county intervention only to expands and remindful things.

Every true behavior must pledge to John Garang our emperor love respect obedience loyalty military service God be with him in peace
