Comments to Analysis and summary:

The figure of (134) one hundred and thirty-four slain collo (Shilluk) civilians would have risen, if bodies of secretly killed were

recovered. Most of the victims were and are cut being killed, either their stomachs are cut open and thrown to the river and do not float. Some are killed in the forest far away from houses where there are no witnesses or left to be eaten by birds and wild animals. These missing and being fetched are pronounced dead.

This mad mess killings, rapes, looting and harassments apparently tantamount to genocide in the collo Kingdom land. This is with the knowledge of the government of South Sudan by deploying one tribe army in the area. The C-in-C of the SPLA and the president of the young nation had backed and arranged the deployment of these cruel soldiers under the command of one tribe commanders with a programme i.e Division (7) Seven was deployed in the whole of Shilluk area western Nile from Manyo under the command of hostile Dinka Major-General Matur who had upper hand in killing the Shilluks. The HQs is in Owaci, Panyikang County upto Manyo County.

The second is Division (1) One where the same cruel soldiers are deployed under the same one tribe commander Major-General Ajonga replaced again by Major-General.

The plan is to grab and encroach the collo land be occupied by Dinka Dingjol, Ngok in the east of the Nile, the land they claimed to be their ancestors land. This is the policy and plans of what they called Padang organization.

This was executed by H.E. The President of South Sudan when he physically flew to an area known as Pijo belonging to Shilluk and declared it a Dinka land and annexed it to Jonglei State which is ridiculous. So the same policy goes on, the Shilluks are still being killed so that they leave their land and nobody intervened because the government belongs to one tribe or the majority in the government is from one tribe. Very unfortunate.
